

What is America

WHAT IS AMERICA

America is a land of opportunity, freedom, and hope. According to the **Washington Post**, America has one of the lowest unemployment rates and one of the best economies. Because it is still a developing country, there are tons of job opportunities in America. Most countries in Europe are already fully developed because most of human history took place there. America is still very young. Because of our amazing government, even the poorest people in America get to have a basic source of income.

WHAT AMERICA MEANS TO ME

To me, America is a home of patriotism, free education, good medicine, and a second chance at life. The American army is one of the strongest armies in the world. The U.S. Army has the most amount of equipment. They spend billions of dollars a week. According to the **Borgen Magazine**, America is the most patriotic country in the world. America also has some of the best medicine in the world. In America, you can stay healthy and live longer. Not only does it have amazing medicine, America has free education. Anyone can receive a public free education. Because of this, anyone can get a job. This is a second chance at life because America is still a developing country.
